

# HIMANSHU MODI

Python developer

modihimanshu66@gmail.com • <https://www.linkedin.com/in/himanshu-modi-dev/> • Bhilwara

## Summary

Highly motivated and results-driven python developer with experience in developing scalable and interactive web applications using Django. I have a strong understanding of HTML, CSS, python, Django other back-end technologies, as well as experience with Git, agile methodologies, and modern development tools. I am constantly seeking new challenges and opportunities to grow my skills and expand my knowledge in the field. My goal is to continuously learn and evolve as a developer.

## Skills

Languages: Python, SQL, Javascript, HTML, CSS

Frameworks: Django, Flask, Numpy, REST

Tools: Excel, Power point, MYSQL, SQLite

Soft skills: Good communication, People management

## Projects

### Automatic Email sender

<https://github.com/thehimanshumodi/auto-emails>

A Python script for automating email sending. Configure your email details and message content to effortlessly send repetitive emails.

### Weather App

<https://github.com/thehimanshumodi/weather-app>

Engineered a Weather App using Django , integrating external APIs to showcase current weather conditions and forecasts for user-specified locations.

## Education
